 Post Emergent Herbicide

Post Emergent Grass Killer
ONLY Kills Grasses

Post Emergent Herbicide

Agrisel GrassOut Max is an EPA approved clethodim based post emergent herbicide. Formulated and produced in the U.S.A. GrassOut Max kills grasses and only grasses. Because GrassOut Max is a post emergent clethodim herbicide it effectively kills more than 50 different grasses in landscaping, ornamentals, trees, gardens, flowers, plants, groundcovers, shrubs, broadleaf crops, agricultural crops and all areas where grasses are a problem.

Key Product Benefits:

- Provides effective post emergent weed control
- Fully labeled for most landscape, home & garden, ornamental, agricultural and non crop uses.
- Kills grasses after they emerge
- Kills grasses only, will not effect flowers, shrubs, broadleaf crops or other broadleaf plants
- Low use rate makes GrassOut Max economical to use
- Convenient package sizes – 12x1/quarts and 4x1/gallon Jugs,
