GENERAL INFORMATION: Gene's Turf Booster™ is specially formulated for Grasses and Turf. Gene's Turf Booster™ contains three forms of nitrogen for fast and long term uptake. The nutrients found in Gene's Turf Booster™ enhance plant growth and soil nutrition.

Gene's Turf Booster™ Fertilizer represents the most advanced level of foliar (spray) and soil applied technology! This technology is exclusive to all Baicor products, as a result of over 50 years of research by Baicor's renowned plant, soil, and nutrition experts.

The turf results you have been dreaming about.

FOLIAR APPLICATION: For best results apply as a foliar early in the morning or late evening. Do not apply as a foliar in drought conditions.

- Connect to hose, turn on water, walk and spray at a slow even pace to provide the most uniform coverage. Completely wet plant and avoid walking over treated areas.
- Best if not watered for at least 24 hours to avoid washing off fertilizer. This allows uptake of nutrients into the leaf.

Note: Yellowing of lawns and plants are not only due to nitrogen deficiency, but also to iron and other micronutrient deficiencies, especially in high pH soils.

Adding more than the recommended amount may burn plants.
Do not use spraying devices that have been used with insecticides or herbicides.

**Keep out of reach of children. • Keep out of direct sunlight.
Store at room temperature (70 Fahrenheit)**

IMPORTANT NOTICE: This product may stain (Keep off unwanted areas such as: sidewalks, patios, driveways, fences, painted areas).
