

Our Story

Natural Alternative[®] has deep roots in the organic lawn care business.

Our parent company, NaturalLawn[®] of America, has been breaking new ground since 1986, when founder Phil Catron made it his mission to raise the bar for safety standards in lawn care. Many said this organic, natural, "green thing" would be a passing fancy, believing chemicals were necessary for beautiful, pest-free and weed-free lawns.

Phil stuck to his core belief. Family safety was first, and the natural, organic approach was not only here to stay, but the right thing to do.
