## BCC10 - A.M. Leonard Swivel Caster Attachment Installation Instructions

### Step 1)

Align holes in swivel caster assembly to the welded caster plate.

### Step 2)

Slip a hex bolt through the welded plate and caster plate. Install a flat washer and lock nut. Tighten by hand.

### Step 3)

Install the remaining bolts, washers, nuts and hand tighten. Once all in place tighten hardware completely, being sure to keep the two plates aligned. Easiest with 9/16" socket driver and 9/16" wrench.

### Step 4)

Slip the 2" Plastic Cap into the top of the open square tube end. The cap is held in place by a pressure fit. Push the cap firmly or tap with a rubber mallet until fully seated against tube wall.

### Step 5)

The Swivel Caster Attachment is now ready for use. Simply insert into the #BCU22 Cart Receiver Bracket and secure in place with the bent clevis pin and clip included with Receiver Bracket.
