NATURAL FERTILIZER

THIS BAG COVERS  
4000 SQUARE FEET.

## CORN GLUTEN 9-0-0

Bradfield Fertilizers™ Luscious Lawn® Corn Gluten fertilizer is a premium granulated fertilizer developed to provide you a safe (when used as directed), clean, convenient and easy way to fertilize lawns, trees and shrubs, as well as vegetable, fruit, herb, flower and rose gardens.

### GUARANTEED ANALYSIS

Total Nitrogen (N).....9%  
0.001% Nitrate nitrogen  
0.012% Ammoniacal nitrogen  
8.987% Water-insoluble nitrogen\*  
Nitrogen 9% organic (9% natural)

Nutrients for this product are derived from corn gluten meal, calcium carbonate.

\*8.987% slowly available nitrogen is derived from corn gluten meal.

Information regarding the contents and levels of metals in this product is available on the internet at: [www.aapfco.org/metals.htm](http://www.aapfco.org/metals.htm)

### DIRECTIONS

Bradfield Fertilizers™ may be applied at any time of year, as there is no bad time to start building soil fertility. It is highly recommended to obtain a soil test in order to accurately determine optimal rates of application.

### ESTABLISHED LAWNS, URBAN TURF & SPORTS TURF

For best results, using a broadcast spreader, apply up to 10 lbs per 1,000 square feet to provide 0.9 lb total nitrogen per 1,000 square feet in early spring. Follow this with one more

application of 10 lbs per 1,000 square feet in the fall.

Water the area of application. Certain grass species or soils may require additional nitrogen only and can be supplemented with more Bradfield Fertilizers™ Luscious Lawn® Corn Gluten 9-0-0 natural fertilizer at an appropriate rate if allowed by state fertilizer application regulations.

### NEW LAWNS

Apply to newly sodded areas as directed for established lawns, with the initial application on the same day as sodding. Water the area. Bradfield Fertilizers™ Luscious Lawn® Corn Gluten 9-0-0 natural fertilizer is not recommended for new lawns started from seed until the root system is established.

### FLOWERBEDS AND GARDENS

Apply 1 lb per 100 square feet each spring and fall. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk or street back onto your lawn/garden.

### APPROXIMATE SETTINGS FOR COMMONLY USED PUSH SPREADERS:

SPREADER BRAND	5 LBS/1000 SQ FT	10 LBS/1000 SQ FT
Agri-Fab	3-4	6-7
Agway/Earthway 2030	17-18	23-26
Agway SB4000-6000	8-9	**
Scotts Easy-Green	27-28	**
Scotts Speedy-Green, Edge-Guard	8-9	14-15
Vigoro	8-9	**

These are approximate settings and are provided only as a guide. Variations in walking speed, physical characteristics of the fertilizer, roughness of the ground surface and condition of the spreader may all affect the accuracy of the settings.

\*\* Multiple passes may be required to achieve this level of application.
