**Check Out the Nutrients Packed Into Every Bucket of Harvest Gold Silica!**

**Guaranteed Analysis**

**GUARANTEED BY HIGHER GROUND DEVELOPMENT**

Total Nitrogen (N)	0.01 %	Promotes chlorophyll production
Available Phosphate (P2O5)	0.03 %	Improves growth
Soluble Potash (K2O)	0.12 %	Improves movement for water, nutrients, & sugars
Calcium (Ca)	1.00 %	Regulates plant growth
Magnesium (Mg)	0.20 %	Increases photosynthesis and energy
Sulfur (S)	0.11 %	Increases yield
Iron (Fe)	1.00 %	Greater chlorophyll production
Manganese (Mn)	0.06 %	Improves growth
Sodium (Na)	0.01 %	Aids plant metabolism, photosynthesis, & osmosis
Zinc (Zn)	0.01 %	Improves growth

Contains Beneficial Substance:  
Silica (Si) 85.00 % Soluble Si improves plant tolerance to abiotic stresses as well as increases flow and stem size; improves water retention and nutrient release.

**USE ONLY AS DIRECTED.** Use with adult supervision. With any plant micronutrient, wear gardening gloves and wash your hands after use.  
**STORAGE:** Keep in a cool, dry place. We suggest rinsing edibles after harvesting.

**SILICA WARNING:** Inhalation of silica dust can cause illness or death.

NET WT 13.9 LBS (6.3 KG)

WITHOUT HARVEST GOLD SILICA

These trees are the same age and were planted 15 ft. apart. Photos were taken eight weeks after Harvest Gold Silica application to one tree.

WITH HARVEST GOLD SILICA

# HARVEST GOLD SILICA

SUPERCHARGE YOUR SOIL TO GROW YOUR PLANTS FULLER & FASTER

FOR INDOOR & OUTDOOR PLANTS

All-natural silica sand that provides a range of essential nutrients and water retention.

1.25 GALLONS • NET WT 13.9 LBS (6.3 KG)

**What Is Harvest Gold Silica?**

Harvest Gold Silica is derived from naturally occurring minerals in gold telluride vein deposits that have been fractured and hydro-cleaned making silica and the unique composition of macro and micronutrients bioavailable from the very first watering. This nutrient-rich silica sand has been shown to retain up to 40% more water, which provides the plant's root system with extended contact with all nutrients and fertilizers — resulting in up to two times the yield versus untreated soils.

**Use Harvest Gold Silica With Every Type of Plant:**

- Herbs
- Flowers
- Vegetables
- Trees
- Shrubs

**Directions**

Create your soil mix by combining 1/8 Harvest Gold Silica with 7/8 soil mix and mix thoroughly. Application rates may vary based on soil, genetics, and conditions.

40% MORE WATER RETENTION\*

2X MORE AVERAGE YIELD\*

50% BIGGER BOLDER ROOTS\*

\*Actual results may vary.
