Look what others are saying...

"My beets, chard, greens and green beans were all very healthy and very tasty. I highly recommend HyR BRIX® to all serious farmers and gardeners."

– Bill P.

"We're going to use it on all of our plants. It improved plant health, yield and sweet flavor in all produce."

– Bud E.

"Thank you for a great and safe product! We had a great garden this year. We planted 25 pounds of seed potatoes and harvested over 11 bushels of nice potatoes. The tomatoes would hardly quit. We also never had carrots as nice and as long as this year."

– Alfred C.

"We had a great experience with your products. Our potatoes doubled production and we had a huge pepper crop."

– Deanna B.

"We could definitely see the difference in our zucchini where we used HyR BRIX® and where we didn't. The plants without fertilizer were behind in growth and production."

– Reuben H.

"We like HyR BRIX® because it's natural and you can apply once and be done. It's easy to apply with no dangerous chemicals. The fruits & veggies are more uniform and larger with better quality. Our customers are saying "We can grow potatoes now!" While in the last year they had given up trying. Same with the other veggies. Great stuff!"

–Graber's Greenhouse

"We used HyR BRIX® on our potatoes. My wife remarked "You pulled up the stalk and it was like a 5 lb. bag of potatoes hanging there! I also need your tomato fertilizer. I never had any success growing tomatoes until I used the HyR BRIX® Vegetable Fertilizer."

–Customer testimonials from Valley View Country Store

"My vegetable garden this past summer exceeded all my expectations. The tomatoes showed a great improvement when I started using HyR BRIX® fertilizers. And my fall garden is doing extremely well with the best broccoli and spinach I've ever grown."

– Bill J.

"The tomatoes and peppers did very well and we will be purchasing more next year!"

– Ron G.

SWEET CORN TESTIMONIES

Look what others are saying...

"First year using the sweet corn product and it was the first time I actually had a 2nd viable ear on my stalk. My crop production was higher due to your fertilizer!"

– Bruce D.

"For years I have had trouble growing nice corn. I used HyR BRIX® sweet corn two years in a row. This past year I had the most beautiful corn. We got more rain than usual, but I really feel it was the fertilizer that helped. The stalks were so green and each stalk had 2 nice ears sometimes 3! The ears were also filled out all the way to the top. I thought the flavor was better as well. I would definitely recommend it to anyone."

- Keith & Miriam M.

"HyR BRIX® fertilizer definitely improves fruit quality and plant health. I used the 12-12-12 on my whole garden, plus the tomato and sweet corn fertilizers. I really like your specialized fertilizers for individual crops."

- Craig F.

"We used HyR BRIX® on our corn this year and it yielded very well. We also put some on our hay ground after the 3rd cutting. And we put some on our garden this fall with great results. Our sister-in-law and her son also had a side by side garden comparison and we could really tell the difference between the two!"

- James T.

PASTURE FERTILIZER TESTIMONIES

Look what others are saying...

"Great pasture and lawn fertilizer!"

-Mike W.

“

I'm having a hard time getting my animals to come in to eat grain and hay - they like the pasture too much!

”

-Paul D.

"Put it on in May. Pasture never had much of any fertilizer on it. Had 6 head of beef on 4 acres, ended up making hay off of 2 of the 4 acres. The other 2 acres the cattle could not keep up with, so I made a cutting on one of the acres. Meanwhile the other 2 acres were ready to be rotated, so it worked out terrific. Great stuff, will buy again and a lot of my friends will also! Thank you."

BUCK STAMPEDE TESTIMONIES

Look what others are saying...

"We only used one application of Buck Stampede this year due to timing and the results were wonderful. Our chicory was doing ok and we had a few deer visiting and grazing. About one month after the single application our camera was getting busier and busier. We had deer we have never seen before and then some! There is now game trail coming in from another farm that is about a quarter mile away. We are now making sure we do both a spring and mid-summer application. It's a great product and we have been telling all of our friends about it."

– Paul G.

"The experience my father and I had with HyR BRIX® fertilizer was above and beyond our expectations. Our food plot consisted of corn, clover, radishes, chicory, turnips, and rye grass. They all showed very luscious. We will be using your product yearly for our hunting plots."

- John S.

"I am here to tell you that I used Buck Stampede fertilizer and my food plots looks great. I haven't seen anything like it yet. I put in some buck wheat and it got 5" tall. We also put in forage oats and it looks like a picture. The deer love it! Looks like I will be using HyR BRIX® from now on."

- Ben H.

"We are happy to report our food plots were the best ever this year! All the plants were healthy and the deer were in the plots all the time! I highly recommend this product! See you in the spring to pick up more!"

– Mike J.

"HyR BRIX® Buck Stampede worked great! I had to take side by side pictures."

- Steve J.
