

Thistle Alert

A Do-It-Yourself product to control Canada thistle and other thistles in your horse and livestock pastures, and in non-crop areas.

Thistledown®

- Controls Canada thistle and other thistles in grass pastures. Does not hurt grass.
- No permits required.
- Highly concentrated. An 8 oz. bottle will treat up to $\frac{3}{4}$ of an acre.
- No grazing restrictions. Horses and livestock can remain in the pastures at the time of application.
- Apply postemergence up to the time of bloom when thistles are actually growing.
- Available at your local chemical supplier or contact Monterey Lawn & Garden Products at 559.499.2100 or via email at info@montereylawngarden.com

Thistledown is a registered trademark of Lawn and Garden Products, Inc.

For Homeowners, Horse Lovers, and Pasture Owners

Distributed by:

Note—Do not use in alfalfa, trefoil, or clover pastures.
