

DIRECTIONS FOR USE

THIS PRODUCT IS A CONCENTRATE AND MUST BE DILUTED BEFORE USING

Floralife P.A.C. Professional Agricultural Cleaner® is a specifically formulated active chlorine detergent designed to help meet the highest cleanser standards. Floralife P.A.C. Professional Agricultural Cleaner® has been formulated for cleaning nonporous surfaces throughout the floriculture industry, which includes greenhouses, nurseries, interiorscapes, botanical gardens, atriums, packing houses and commercial / retail florists. Floralife P.A.C. Professional Agricultural Cleaner® may also be used in homes, school and other public areas. Clean with Floralife P.A.C. Professional Agricultural Cleaner® before and after work period. Floralife P.A.C. Professional Agricultural Cleaner® contributes 450 ppm of active chlorine when used at a rate of 2.5 fl. oz. per gallon of water.

A composite of detergents and emulsifiers, Floralife P.A.C. Professional Agricultural Cleaner® dislodges stubborn material such as sludge, oily residues and dirt. The emulsion will not "break" during rinsing, thus preventing oily residue to return to the contact surface.

GREENHOUSES/NURSERIES, INTERIORSAPES, BOTANICAL GARDENS, ATRIUMS, PACKING HOUSES, COMMERCIAL / RETAIL FLORISTS, BOUQUET MANUFACTURERS

Floralife P.A.C. Professional Agricultural Cleaner® is safe to use on stainless steel, aluminum, iron, concrete, plastic, poly and glass, if rinsed prior to drying.

WORK AREA, BENCHES AND COOLERS

Spray, mop or brush surfaces with a solution of Floralife P.A.C. Professional Agricultural Cleaner® after each work period. For maximum cleaning, let stand for 15 to 10 minutes. Rinse with clean water.

POTS, FLATS AND FLOWER BUCKETS

Pots, flats or flower buckets should be dipped into solution of Floralife P.A.C. Professional Agricultural Cleaner®, then scrubbed clean to remove debris. Lightly soiled containers may be sprayed or swabbed with a solution of Floralife P.A.C. Professional Agricultural Cleaner®. Clean outside and inside of containers for best results. Rinse with clean water.

For heavily soiled containers, soak in a solution of Floralife P.A.C. Professional Agricultural Cleaner® for 5 to 10 minutes. Rinse with clean water.

TOOLS, CUTTERS AND EQUIPMENT

Spray, mop or brush clean with a solution of Floralife P.A.C. Professional Agricultural Cleaner®. Rinse with clean water.

MAINTENANCE OF WALKWAYS, FLOORS AND COOLERS

For heavy build-up spray, mop or brush. Let stand for 5 to 10 minutes, then scrub to remove build-up. Rinse with clean water.

As a maintenance program, spray, mop or brush clean with solution of Floralife P.A.C. Professional Agricultural Cleaner® weekly or monthly depending upon use of the equipment. Rinse with clean water.

OUTSIDE / INSIDE STRUCTURE

It is recommended to use a foam applicator when using Floralife P.A.C. Professional Agricultural Cleaner® to clean walls, ceilings and rooftops to insure adequate soaking. Use a high or low pressure sprayer to remove dirt

and debris, then rinse thoroughly with clean water.

APPLICATION METHODS

High Foaming

Floralife P.A.C. Professional Agricultural Cleaner® is high foam producing when used in a foam applicator. Foam is an effective way to clean heavily soiled areas. Foam can be beneficial due to the residual soaking action on both vertical and horizontal surfaces. This soaking action contributes to thorough cleaning results.

Pressure Sprayers

High and low pressure sprayers are recommended for easy removal of debris and rinsing.

Note

Aluminum, copper and other soft metals may be cleaned with Floralife P.A.C. Professional Agricultural Cleaner® but use solution must be rinsed shortly after application to prevent any metal etching.

PRECAUTIONARY STATEMENTS - FIRST AID

SEE MATERIAL SAFETY DATA SHEET

Causes Burns

Avoid contact with skin and eyes. Wear suitable gloves. Wear eye protection. Avoid breathing spray, mist or vapors. Avoid contact with acids.
