

AM LEONARD SPRAY MAX SPRAYERS – FLOW RATES

Soft Flow Technology provides the answer, creating that constant output application rate throughout your treatment process, unlike Hand Pump Applicators. Our Soft Flow rates of application provide the gentle flow needed to treat cracks and services in all types of structures where insects live. Match Soft Flow to your spray tip of choice and experience a day's work without Hand Pumping. You will never go back.

SPRAYMAX PRO 100 & 400 SERIES SPRAYERS
