## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION.** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

### ENVIRONMENTAL HAZARDS

This product may be toxic to aquatic organisms. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Tablets exposed on the soil

surface may be hazardous to fish and aquatic invertebrates. Cover or collect tablets spilled during application.

### **FIRST AID**

#### **IF INHALED:**

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

### **HOT LINE NUMBER**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

**NOTE TO PHYSICIAN:** No specific antidote is available. Treat the patient symptomatically.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is a systemic animal repellent. Its exclusive formula protects ornamental plants, flowers, trees, and shrubs all season long with a single application. The easy-to-use tablets are pre-measured and require no mixing or spraying. Just place tablets into the soil, water in, and walk away! Growing beautiful, strong plants has never been easier.

**How it Works:** Water dissolves this product in soil, where it is absorbed by roots and moves up through the plant. Once absorbed, rain or watering cannot wash off this internal protection. Even new growth is protected against animal browsing for the entire growing season. For complete results, the repellent must distribute throughout the plant. Depending on the size and health of the plant, this may take one week to one month (for very large plants). To protect plants

during uptake, treat with a foliar spray such as Repellex® Deer & Rabbit Repellent.

## **RESTRICTIONS**

NOT INTENDED FOR USE ON FOOD OR FEED CROPS.

AVOID CONTACT OF PESTICIDE WITH ROOTS, FOLIAGE, STEMS, AND FRUIT OF ALL CROPS INTENDED FOR CONSUMPTION BECAUSE UNPLEASANT TASTE WILL RESULT.

## **APPLICATION RATES**

**When to Use:** Apply when planting. For established plants, use any time after new growth appears. Do not apply when plant is dormant or when soil is waterlogged or frozen. These conditions inhibit uptake into the plant. Apply once every growing season.

Note: Application to plants heavily browsed may not prevent their eventual loss due to existing damage and stress. For best results, use this product as part of a regular maintenance program before problems start.

**Where to Use:** On ornamental plants, flowers, trees, and shrubs to deter animals (deer, rabbits, voles, moles, gophers, groundhogs, feral hogs, dogs and cats) from feeding on all parts of plants. Does not protect against birds or insects.

**How to Apply:** Place tablets in soil or growing medium of plant. Position 2-3 inches away from root crown, and push 1-3 inches below the soil surface. When more than one tablet is applied at once, evenly space them around the plant. Activate the application with irrigation or natural rainfall. Do not over water. For containerized plants, use enough water to wet the potting soil thoroughly without causing water to flush out from the bottom of the container.

**How Much to Apply:** Measure the height and width of the plant to the nearest foot (12"). Apply 1 tablet per every foot of plant height and width (height + width). For large tree forms, measure the crown only, not including the height of the trunk. Apply once every growing season.

## NUMBER OF TABLETS

↑ →		Plant Width (ft)				
		1	2	3	4	5
Plant Height (ft)	1	2	3	4	5	6
	2	3	4	5	6	7
	3	4	5	6	7	8
	4	5	6	7	8	9
	5	6	7	8	9	10

Note: If plant is very fast-growing, more than doubling in size during a single growing season, additional applications may be required. Repeat application after plant doubles in size. Do not apply more than 3 times per year.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage:** Store in original container in a cool, dry place, out of reach of children, preferably in a locked storage cabinet. Keep

container closed to prevent spills and contamination. Keep away from excess heat and open flames.

**Pesticide Disposal and Container Handling:** Nonrefillable container. Do not reuse or refill this container. If empty, place in trash or offer for recycling, if available. If partly filled, call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

## **WARRANTY STATEMENT**

**Terms of sale or use:** Buyer assumes all risks of use, storage or handling of this product not in accordance with directions. REPELLEX® makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Except as so warranted, the product is sold as is.

**To the fullest extent permitted by State Law:** The manufacturer shall not be liable for the buyer's and user's use and/or handling and or storage for this material, when such use and/or handling and/or storage

is contrary to labeling directions. Follow directions carefully. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller and are assumed by the buyer and user at their own risk.

REPELLEX®'s directions for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with label directions or established safe practice.

**Damages:** Buyers or users exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages.
