

HOW TO ASSEMBLE THE SUSTAINABLE PRODUCE CONTAINER

For best results crease ALL fold lines first.

 <p>support walls front wall</p>	 <p>top floor worms</p>	 <p>outer walls</p>
<p>1 With the printed side down, crease all folds then fold support walls onto the front wall.</p>	<p>2 Hold support walls and swing top floors into box so worms line up.</p>	<p>3 Bend up front wall, swing open support walls so they line up with outer walls.</p>
 <p>inside walls tuck tabs into floor</p>	 <p>front tab center slot</p>	 <p>push in moon tabs alternate: slide tabs into walls then lock center lid</p>
<p>4 Fold inside walls over the support walls and tuck tab in place in floor.</p>	<p>5 After filling the box, slide front tab of lid into center slot of box. </p>	<p>6 To lock, push moons on tabs into walls. Or slide tabs into walls before inserting center front tab.</p>
