**VERSAMAT®**

**GROUND PROTECTION MAT**

PRODUCT INFORMATION BROCHURE

**VersaMat®** is a ground protection mat boasting a low-profile tread pattern and a high load capacity. These rugged mats are made of virtually indestructible .5-in. thick polyethylene. VersaMats® withstand vehicles weighing up to 120 tons\*, bend but do not break, and feature a limited lifetime warranty. VersaMats® have been tested in record cold and heat and are constructed from environmentally friendly recycled plastic materials. They are available smooth on one side or both sides, either are ideal for removing dirt or gravel; and virtually eliminate the possibility of getting stuck.

- **Features a low-profile tread ideal for pedestrian applications**
- **Easily supports 120 ton\* vehicles**
- **Manufactured from rugged .5-in. thick polyethylene**
- **Build a roadway or working platform in minutes**
- **Leave turf smooth, even in soft conditions**
- **No more splintered, warped, water-logged plywood**
- **Simply hosing down leaves the mats clean**
- **Available in black or clear**
- **Mats can be locked together with Turn-A-Links forming a continuous roadway**
- **Mats bend, but won't break**
- **Environmentally friendly**
- **Made from recycled polyethylene**
- **Limited lifetime warranty**

\* Load bearing capacity is subject to ground conditions. Sizing is subject to a manufacturing variance of +/- 5%.

# PRODUCT INFORMATION

**VersaMat®** is a ground protection mat with a load capacity of 120-tons\*. It features an pedestrian friendly tread pattern and a durable polyethylene construction. It is designed to create temporary roadways, walkways and work sites.

**Material:** 100% recycled high-density polyethylene (HDPE)

- 48-in. x 96-in. x .5-in.
- Usable surface area of 32 sqft.
- Weight 86 lbs.
- Versa tread
- Black and clear colors available
- One-sided diamond cleat tread

MODEL: VM48

**Black** **WARNING:** This product can expose you to chemicals including Lead, Carbon Black, Chromium, Nickel Compounds, and Sulfur Dioxide, which are known to the State of California to cause cancer and birth defects or other reproductive harm.
