Starter Tablets

12 Gram Size
875 TABLETS

7.5 Gram Size
1400 TABLETS

Leonard Starter Tablets supply the nutrients needed during the plants first season. These tablets break down over a one year period through the action of soil bacteria which convert the tablet nutrients to forms that can be absorbed by plant roots.

DIRECTIONS FOR USING LEONARD 12-17-17 STARTER TABLETS*

• NEW LANDSCAPE PLANTINGS—CONTAINER GROWN STOCK

APPLICATION	Plants 1-Gal. can	Plants 3-Gal. can	Plants 5-Gal. can	Plants 7-Gal. can	Larger Size plants
RATES	12-24 total grams	24-48 total grams	48-60 total grams	60-100 total grams	Use rates for established planting

• NEW LANDSCAPE PLANTINGS—BARE ROOT OR BALLED & BURLAPPED

Application Rates

For each 12 to 18 inches of plant height or spread or for each 1/2 inch of tree trunk diameter at the base:
—USE—
20 grams for slow-growing plants.
40 grams for fast-growing plants or poor soil situations.

Method

1. Dig hole, position plant at proper level and backfill to within 6 to 8 inches of the soil surface.
2. Place tablet(s) beside the root ball, about 1 inch from root tips. Do not place in the bottom of the hole.
3. Continue backfilling, tamp and water.

• ESTABLISHED PLANTINGS—TREES, SHRUBS, ROSES, VINES AND PERENNIALS OF ALL SIZES

Application Rates

For each 12 to 18 inches of plant height or spread or for each 1/2 inch of tree trunk diameter at the base:
—USE—
20 grams for slow-growing plants.
40 grams for fast-growing plants or poor soil situations.

Method

1. Punch holes 6 to 8 inches deep in soil around the dripline.
2. Divide the recommended number of tablets among the holes.
3. Insert tablets, close the holes.

*Note: Use lower rates on plants recently fertilized with a slow release type fertilizer.
CAUTION: Harmful if swallowed-Do not ingest. Keep out of reach of children and pets.
